American Fireworks has developed a unique "time rack system" to create a finale-like segment which lasts nearly 3 minutes. This time rack system allows us to begin building the intensity of the show towards the grand finale. This segment of your program will start with firing 2 shells every 3 seconds and will progress to firing volleys of six shells of coordinated colors and effects. The pre-finale will conclude with a thundering barrage of titanium salutes, leading the crowd to believe that the show has ended. The American Fireworks time rack system is one of the things that sets our shows apart from those of our competitors.

## PROPOSAL

to

# **Bay Family Services**

**McKeon Education Group, Incorporated**  
**Prevention/Intervention Consultants**

*MEG*, Inc. creates, markets and implements prevention and intervention programs for students, parents and school staff. Programs authored by *MEG* professional staff members have been implemented in over 150 elementary, middle, and high school settings. Programs focus on insuring that our nation's young citizens develop into mentally, emotionally, and physically healthy people of character.

Ms. Loren Marie McKeon, Consultant to the MEG has been involved in developing programs for a private company that were recognized as an *Ohio Best Practice* by the State Board of Education. Ms. McKeon has been featured on area television and national publications. She has presented programs for the Ohio Catholic Educators Association, the Ohio School Board Association, the National School Board Association, the Ohio Middle School Conference, Governor Taft's Summit on Character Education, the National School Psychologist Association, the Ohio PTA Association, and the National PTA Association. In addition, Ms. McKeon serves on the Advisory Board for *New Directions* and as Board of Director member for the *Village Food Project*. Ms. McKeon is on numerous School Improvement Teams, and is a Consultant for *MEG*. Ms. McKeon authors and oversees all programs and services provided to schools that contract with *MEG* Incorporated.

## Accountability Based Research

All *MEG's* student, parent, and staff programs are based on the widely accepted prevention model and writings of Bonnie Bernard which is a school friendly translation of Emmy Werner and Ruth Smith's extensive research in the area of prevention. In short, this model asserts that students will be 'protected' against harmful and destructive behaviors such as (but not limited to) alcohol & drug use if families, schools, and communities provide the following:

- Relationships with caring adults
- Ongoing opportunities for meaningful participation
- A sense of purpose and future
- High expectations and purposeful support
- Social competency and problem solving skills
- Bonding to a school or institution

Our programs strive to partner with schools in effort to provide these protective factors to all student participants.

Research is completed on student programs then is analyzed by an independent third party. The purpose of this research is to measure the effectiveness of our programs in order for us to better serve you. One of

the characteristics of these programs will be the use of statistical data along with qualitative data. This data allows for the revision and fine-tuning of programs to insure that all specific goals and objectives are the program are being met.
