

# COVID-19 Update: Phase 1B Vaccinations

Governor DeWine has issued the vaccine distribution timeline for Phase 1B of Ohio's vaccination program, which is set to begin next week for those ages 80 and up.

**Week of January 18:** Vaccine providers will begin receiving their first allotment of vaccines for those ages 80 and older. Vaccines will be delivered on Monday, Tuesday, and Wednesday. Each provider will begin administering vaccines the day after they receive their shipment. All vaccines must be distributed within seven days.

**Week of January 25:** Vaccinations are anticipated to begin for those ages 75 and up following the same process outlined above. Vaccinations will also be available to those with severe congenital, developmental, or early-onset medical disorders. Additional information on how these individuals can choose to receive their vaccines is forthcoming.

**Week of February 1:** Vaccinations are anticipated to begin for those ages 70 and up following the same process outlined above.

**Week of February 8:** Vaccinations are anticipated to begin for those ages 65 and up following the same process outlined above.

**Please Note:** "When a new age range opens, that does not mean vaccinations will be complete for the previous age range," said Governor DeWine. "Vaccinating Ohioans in Phase 1B will take a number of weeks given the limited doses available."

A full list of vaccination locations can be found at the Cuyahoga County Board of Health website: <https://www.ccbh.net/covid-19-phase-1b-provider-list/>. A list of the west side providers is on the following page.

***You must directly contact the provider of your choice from this list to schedule a vaccine appointment.***

### **Cuyahoga County Board of Health**
